PT-DX810, PT-DZ870, PT-DW830, PT-DX100,
PT-DZ110XE, PT-DZ13K, PT-DS12K, PT-DW11K,
PT-DZ10K

Simple Stacking

The Medium Rental Frame provides a simple and reliable stacking solution, the frames simply connect together via the stacking pins and bushes and are locked together quickly by positioning the locking pins. **Rigtec frames will stack perfectly with Panasonic's ET-RFD91 frames.**

Removable Front Bar

All Rigtec frames feature a removable front bar meaning the projector does not have to be removed from the frame when used with a mirrored lens, like the ET-DLE030.

Quick Adjustments

The Rental Frames feature an adjustment system that makes it quick and easy to adjust the projectors position within the Rental Frame. The front ratchets allow for vertical adjustments on both sides of the projector independently, the frame also offers horizontal adjustments by simply rotating the handle at the rear of the frame.
